

NEVER ALONE

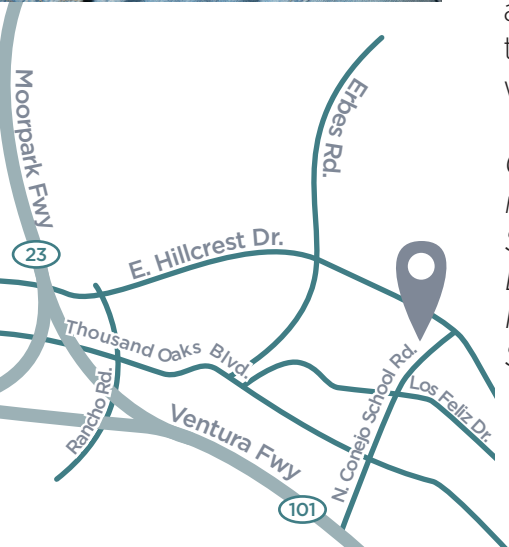

How Spiritual Ideas Work in Us

A Free Talk by
MELANIE WAHLBERG,
of the Christian Science
Board of Lectureship

We all can experience God as an active presence of good in our lives, and as a reliable source of fresh ideas that bring about inspired solutions. God's thoughts remind us of our spiritual identity, show us our potential and enable us to heal and be healed. This healing approach, based on Christ Jesus' life, demonstrates the reliability of God and spiritual inspiration. The results transform lives—we are helped, and we find we can help others, too.

Christian Science is the Christian religion founded in the United States 150 years ago by Mary Baker Eddy and the foundation of the Pulitzer-prize winning Christian Science Monitor.
