

SPIRITUAL DISCOVERY:

How we can Better the World

**Can we challenge global uncertainties
and heal world conflicts?**

Can I make a difference in the world? Absolutely!

Discovery is what has nurtured humanity's progression throughout history, be it as a result of new inventions or new views of fundamental human rights. Spiritual discovery results from stripping away surface-level appearances in order to see our lives and our world governed by an all-good Principle, God, that is Life and Love itself. This lecture is about how we find real change and healing through new views of people, power, and prayer.

Hear Tom McElroy, a Christian Science practitioner, explain how the practice of Christian Science helps anyone discover and prove the power of God's laws of goodness and harmony. These laws, understood, govern our lives and bring immeasurable benefits to mankind, even in the most adverse situations.
